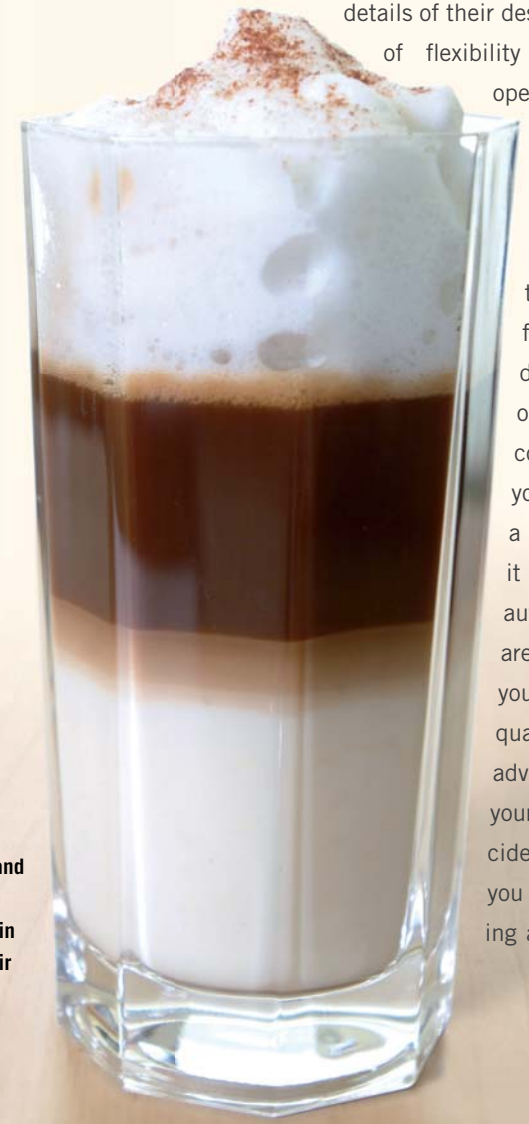
COFFEE MACHINES DESIGNED WITH A PASSION FOR PERFECTION.

Are such high quality, technically sophisticated devices really needed to brew good coffee? The answer is clearly yes. The better the quality and technology of the machine the higher the enjoyment. If you look at the NIVONA collection and compare the different products, you will come to realise that along with their external beauty they hide inner qualities, such as the loving details of their design, their high degree of flexibility and their superior operator comfort, making them exceptionally easy to use and look after. Whether Espresso, Macchiato or the classic cup of coffee, whether the most delicate frothed milk or a powerfully strong coffee – with NIVONA your favourite coffee is a success and tastes as it should. And at your authorised dealer, you are in good hands. There you receive first class quality and first class advice. So, if you follow your instincts and decide to go with NIVONA, you will always be making a very smart decision.



The Latte Macchiato:
Combined with milk and milk froth, the coffee shines outlike a star in the glass. A love affair for your taste buds.

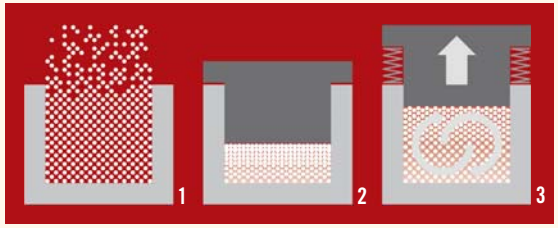
SMALL DETAILS THAT MAKE A BIG DIFFERENCE.

Attention to technical detail is very important when designing sophisticated products such as those produced by NIVONA. Once you have a NIVONA appliance at home, you will know that the effort was worthwhile. Because the sum of the many technical refinements and subtleties turns your coffee into a very special treat, every day.

A WEALTH OF SPECIAL FEATURES.

1 | THE NIVONA AROMATICA-SYSTEM

The dynamic brewing chamber guarantees that less bitter constituents pass into the coffee. After grinding, the coffee is compressed into the brewing chamber, swirled around with water and thus releases more flavour. The result is a smoother, more aromatic, tastier cup of coffee. At a constant quality.



After grinding (1) and pressing (2) boiling water is pumped into the brewing chamber. Due to the pressure and the spring-loaded lid the chamber expands: Water and coffee powder are swirled together (3).

2 | THE CLEANING, DESCALING AND MAINTENANCE PROGRAMMES

These tasks are necessary for reasons of hygiene and to ensure the fault-free operation of any fully automatic machine. At NIVONA we have extensively incorporated automatic programmes that regularly free the machine of coffee oil residue, lime or milk residues at the press of a button.

3 | THE “SPUMATORE” - TECHNOLOGY

The Spumatore – whether OneTouch or manual – gets up a good head of steam and produces beautiful frothed milk or hot water for tea. Directly into the cup or the glass, extra aids are not necessary. And it is easy to care for – with the wash cycle or by hand.

4 | THE REMOVABLE BREWING UNIT

A fully automatic machine should be cleaned occasionally on the inside – there, where cleaning programmes cannot reach. To remove coffee residue or to prevent mould, the brewing unit by NIVONA can simply be removed and washed with clean water.

5 | USER GUIDANCE DISPLAY

With this feature – whether text or symbol display – we went to a lot of effort for all models to make it easier for you. The structure of the display menu is easy to understand, intuitive to use and designed in a simple, logical and ergonomic manner.

TWO PERFECT REASONS, TO BE UNFAITHFUL TO YOUR CURRENT COFFEE MACHINE.

The NIVONA machines of the 800 series lead into temptation all those who enjoy good coffee. The enjoyment of perfect coffee is more intuitive than ever. Strong Espresso, delicately whipped Cappuccino or a mild Café Lungo ... at the touch of a button. Everything clear and concise. Everything exactly to your taste!

With our top of the range models, CafeRomatica 850 and 830, preparing coffee becomes an experience to delight the senses. These models will automatically take you to the top range of coffee machines.

EYE-CATCHING APPEARANCE.

Externally, it is aesthetic, elegant and beautiful. Internally, pure reason reigns: Swiss quality and German precision united in a slender form. And it has even more inner qualities to offer. For example, the large display with words and image symbols. The Cappuccino function at the press of a button. There is even a cleaning programme for the milk frother "Spumatore". An intelligent energy-saving function. Everything in an elegant and compact design – a sophisticated, technical masterpiece, that leaves nothing to be desired.

ENJOYMENT AT THE TOUCH OF A BUTTON

Whether coffee or milk drinks: with the "OneTouch Spumatore" function, particularly creamy, delicious cappuccino or latte macchiato can be prepared at the touch of a button – with the Duo-Spumatore you can even make two at once. At the same time, the cup illumination brings your favourite cup into the limelight. And best of all, flavour, mixing ratio and recipes can be set individually for each speciality drink.

CLEAR INSTRUCTIONS

With a sophisticated design, the large, easy to read digital text display and the new clear operating symbols make preparing coffee a truly simple pleasure. Whether switching on the intelligent cup heating, the maintenance programme or brewing coffee, it's easy for everyone to operate this convenient and stylish appliance.

FRESHLY RINSED

Very convenient, very simple, very reliable. The "OneTouch Spumatore DUO" virtually cleans itself – automatic rinsing with water and steam ensures cleanliness, hygiene and perfect functioning. The milk froth is always fresh, always delicious.

CafeRomatica 850

- Heatable cup tray
- ECO-Mode und 0-Watt-energy-saving off-switch
- Extremely silent, hardened steel conical grinder
- Milk froth at the push of a button: OneTouch-"Spumatore"-Duo
- Digital text/graphics/Duo Dialogue display for easy operation
- Individually programmable coffee recipes
- Temperature programming and aroma selection
- Hygienic care programmes (rinsing, cleaning, descaling)
- Automatic rinse function for the milk frother "Spumatore"
- Automatic level monitoring including beans sensor
- Stainless steel milk cooler thermo (0.5 L), cup illumination for aesthetic appeal

THE DARK SIDE OF SEDUCTION.

ENJOYMENT AT THE TOUCH OF A BUTTON

Very simple – cup for cup – whether Espresso or milk drinks. With the "OneTouch-Spumatore" function, particularly creamy, delicious Latte or Macchiato can be prepared at the touch of a button. At the same time, your favourite cup is brought into the limelight by the cup illumination. And the best thing about it is that aroma, mixing ratio and recipe can be adjusted for every speciality drink.

CLEAR INSTRUCTIONS

With a sophisticated design, the large, easy to read digital text display and the new clear operating symbols, coffee preparation becomes a simple pleasure. Whether using the care programme or brewing coffee, it's easy for everyone to operate this convenient and stylish appliance.

FRESHLY RINSED

Very convenient, very simple, very reliable. The "OneTouch Spumatore" virtually cleans itself – automatic rinsing with water and steam ensures cleanliness, hygiene and perfect functioning The milk froth is always fresh, always delicious.

CafeRomatica 830

- ECO-Mode and 0-Watt energy-saving off-switch
- Extremely silent, hardened steel conical grinder
- Milk froth at the push of a button: OneTouch"Spumatore"
- Digital text/graphics/Duo Dialogue display for easy operation
- Individually programmable coffee recipes
- Temperature programming and aroma selection
- Hygienic care programmes (rinsing, cleaning, descaling)
- Automatic rinse function for the milk frother "Spumatore"
- Automatic level monitoring including beans sensor
- Cup illumination for aesthetic appeal

USER FRIENDLY, WITH THE HOST OF EXTRAS YET TOTALLY UNCOMPLICATED.

This duo makes for stress-free relationships – at least when it comes to the coffee making. With the most varied features, the 700 series by NIVONA is the perfect upper mid-range. And it has passion to the power of two: flexible settings and large text display.

And everything is made with Swiss precision and to the highest quality standards. Whether cup illumination or text display, whether milk frother "Spumatore" or noise insulation – everything is attuned to perfect enjoyment.

THE WAY TO ALL-ROUND HAPPINESS.

NON-STOP FLAVOUR

The standard flavour choice flexibly allows you to select your desired coffee strength at any time, allowing for individual coffee enjoyment. Anything is possible from “very mild” to “very strong” – simply by the press of a button.

CLEAR INSTRUCTIONS

Yes, this machine can talk: With its large, easy to read digital text display, preparing coffee becomes a truly simple pleasure. It tells you if there is too little water, reminds you about a maintenance program, lets you know if the coffee grounds container is full and allows you to programme the coffee aroma – it’s easy for everyone to operate this convenient and stylish appliance.

REFINED EXTRAS

Very convenient, very simple, very practical: the extensively height-adjustable coffee spout accommodates small and large cups and even a latte macchiato glass. And it’s accompanied by stylish cup illumination – a perfect example of attention to detail.

CafeRomatica 765

- Stainless steel cup storage surface
- ECO-Mode and 0-Watt energy-saving off switch
- Extremely silent, hardened steel conical grinder
- Manual Pro-Cappuccino “Spumatore” function
- Digital text dialogue display for convenient operation
- Temperature programming and aroma selection (3/5 stage)
- “My coffee”-function
- Hygienic care programmes (rinsing, cleaning, descaling)
- Automatic level monitoring
- Stainless steel milk cooler thermo (0.5 L),
- Cup illumination for aesthetic appeal

AT THE TOP OF THE BLACK LIST.

ALL FROTHED UP

It's very simple to make every delicious cup, manually like the pros, using the "Spumatore" function. The frothy milk makes for especially creamy Latte Macchiato or Cappuccino.

QUIET ZONE

Not a fan of loud noises? With its sophisticated design and the special sound insulation of its high quality conical grinder, the 745 operates quietly and efficiently in the background.

FRESHLY RINSED

To remove coffee residue and prevent mould, the brewing unit on all NIVONA coffee machines can be removed and washed with clean water. It's easier and more convenient than you could imagine.

CafeRomatica 745

- Stainless steel cup storage surface
- ECO-Mode and 0-Watt Energy-saving off switch
- Extremely silent, hardened steel cone grinder
- Manual Pro-Cappuccino function "Spumatore"
- Digital text dialogue display for easy operation
- Temperature programming and aroma selection (3/3 stage)
- Hygienic care programmes (rinsing, cleaning, descaling)
- Automatic level monitoring
- Cup illumination for aesthetic appeal

IF YOU'RE IN THE MOOD FOR COFFEE WITH A TOUCH OF LUXURY, COME THIS WAY?

CafeRomatica 650 • 630

The perfect couple with a touch of luxury – anyone who has come to appreciate the NIVONA taste, will certainly not want to do without this small daily luxury. Offering perfect functionality, reduced to the essentials, these two machines will allow you to enjoy a full-bodied and spicy flavor and appreciate it like true coffee connoisseurs. With the familiar Aromatica system, the 600 series is well thought out and easy to use, and always a smart choice.

THE BEGINNING OF A GREAT PASSION.

- ECO-Mode and 0-Watt Energy-saving off switch
- Extremely silent, hardened steel conical grinder
- Manual Pro-Cappuccino “Spumatore” function
- Digital symbol dialogue display for easy operation
- Temperature programming and aroma selection
- Hygienic care programmes (rinsing, cleaning, descaling)
- Automatic level monitoring
- Cup illumination for aesthetic appeal

LET THERE BE LIGHT

Not only aromatic, but beautiful. During grinding and brewing, the cup is placed stylishly in the spotlight to let your eyes savour the experience.

A TREASURY OF FLAVOURS AND THE QUIET ZONE

Transparent and protective of the aroma, the beans container holds around 250 g. Not a fan of loud noises? You don’t need to worry because below this, the high quality conical grinder of the 650 series works particularly silently due to a special sound insulation.

DO YOU LIKE YOUR DRINK BLACK?

- ECO-Mode and 0-Watt-Energy-saving off-switch
- High-quality, hardened conical grinder
- Manual Pro-Cappuccino-Function„Spumatore“
- Digital Symbol-Dialogue-Display easy operation
- Temperatureprogramming and Aroma selection
- Hygiene-care programmes (rinsing, cleaning, descaling)
- Automatic level monitoring

ALL FROTHED UP

It’s very simple to make every delicious cup, manually like the pros, using the “Spumatore” function. The frothy milk makes for especially creamy Latte Macchiato or Cappuccino.

FRESHLY RINSED

To remove coffee residue and prevent mould, the brewing unit on all NIVONA coffee machines can be removed and washed with clean water. It’s easier and more convenient than you could imagine.

At NIVONA, aromatic espresso and the finest coffees are in good hands. Even if it is “only” about the grinding of coffee beans – with such careful and proper treatment, the beans give their all to provide fresh and aromatic enjoyment. So it’s not only the first impression that is good, but also the coffee that results from the grinding process.

- Multi-stage grinding options
- Gentle grinding for aroma protection
- Infinitely adjustable grinding quantity and duration
- Transparent ground coffee holder, removable
- Removable, transparent bean container (200 g)
- High-quality, hardened steel conical grinder
- Cord storage

PERFECT DETAILS

With the ergonomically positioned timer you can reliably control how long the grinder should work. And thereby adjust to how much ground coffee you need.

THE RIGHT TWIST

At the forefront in handling and quality. With the transparent bean container, the quantity remaining can be controlled and the grind of your coffee determined with a twist.

GET THE BEST OUT OF THE BEANS.

THE ORIGINAL IS ALWAYS THE BEST.

THE PERFECT PARTNER FOR YOUR NIVONA.

A smooth milk froth belongs to speciality preparations such as cafe latte, cappuccino or latte macchiato. The thermo milk cooler keeps milk fresh and cool for a long time. Fits on any apparatus of the NIVONA CafeRomatica series with Spumatore. Adapted to the design of the NIVONA machines. High quality material (stainless steel).

Model: NICT 500
ANR: 390 700 050

THE HOME OF THE BEST BEANS.

What it's not: mass produced. What it is: small and beautiful. Our insider tip at NIVONA: this espresso coffee is the pinnacle of coffee enjoyment. Finest espresso coffee beans for fully automatic machines. Selected from the finest high-land raw beans. Roasted according to the latest knowledge using the traditional drum roasting process and then packed. A balanced ratio of Arabica and Robusta beans, roasted evenly and gently (1 kg packs).

Model: NICM 001
ANR: 390 700 001

STAY YOUNG AND BEAUTIFUL WITH THE RIGHT CARE.

It's very simple in principle – any long-term relationship requires attention and good care. Even a gem such as a NIVONA fully automatic coffee machine needs to be cared for so as to keep on working faithfully. Regular cleaning is not only more hygienic; it also protects your machine and ensures full flavour on a continuous basis. The good thing about NIVONA: it gives clear instructions as to what it requires for example, with the cleaning or descaling programme. This shows you exactly what to do – simple, and of course best done with the original care products.

ORIGINAL NIVONA ACCESSOIRES

SPECIAL FLUID DESCALER

Your NIVONA fully automatic coffee centre provides an integrated descaling programme. The NIVONA descaler is designed especially for our machines and will reliably remove limescale without damaging the machine. The special NIVONA descaler leaves no residue! NIRK 703, includes 500 ml, enough for 5 treatments. Regular descaling protects your machine and preserves the coffee's full flavour.

Model: NIRK 703
ANR: 390 700 300

LIQUID CLEANER CREAM CLEAN

Not just clean, but pure. The liquid cleaner CreamClean can easily rid all milk-frothing-devices of high quality fully automatic coffee centres of milk residues. It cleans reliably, is both food safe and tasteless, and simply needs to be mixed with water (10:1) in order to get rid of the tiniest milk residues. As a result, the frothed milk conjured up by the milk-frothing-devices will be perfect and hygienic every time.

Model: NICC 705
ANR: 390 700 500

CLARIS FILTER CARTRIDGE

The CLARIS filter cartridge NIRF 700 is specifically designed for NIVONA fully automatic coffee centres. It is screwed directly into the water tank. It is filled with purely organic material, without chemical additives. With CLARIS filter cartridges you can protect your appliance and improve its durability. The CLARIS filter cartridge, if changed regularly, ensures that you will have to descale your NIVONA machine less often.

Model: NIRF 700
ANR: 390 700 100

CLEANING TABLETS

Your NIVONA fully automatic coffee centre provides an integrated cleaning programme. NIVONA cleaning tablets are specifically designed for this purpose and completely loosen staining such as coffee residues. Regular cleaning protects your machine and preserves the coffee's full flavour.

Model: NIRT 701
ANR: 390 701 200
